**Challenges  
for the Islands  
in the era of  
the Circular Economy**

under the auspices of

# **EPOMM**

## European Platform on Mobility Management

**EPOMM is the European Platform on Mobility Management, a network of governments in European countries that are engaged in MM, founded in 1997. They are represented by the ministries (or their institutions) that are responsible for MM. EPOMM is organized as an international non-profit organisation with seat in Leuven, Belgium.**

Beside bringing and keeping MM on the European agenda, EPOMM offers networking between member states, exchange of knowledge (also via the monthly e-update), the annual highlight of the ECOMM conference, tools like a modal split database, workshops, seminars etc.

under the auspices of

# **EPOMM** European Platform on Mobility Management

EPOMM is **calling for a holistic policy and planning approach by applying Mobility Management**, which is the smart management of mobility needs and transport demand and packaging it with infrastructure, public transport and active mobility, transport and urban planning (SUMP, SIMP, SEMP...) as well as digitalization, sharing and mobility-as-a-service, e-mobility and zero-emission vehicle and transport technologies.

**Experiences in the EPOMM Member States shows: MM makes the difference!**

**CirCIE 2019**

**Challenges  
for the Islands  
in the era of  
the Circular Economy**

under the auspices of

11 EPOMM member states provided input on their respective national mobility management strategies  
The strategies can be categorized in major themes:

- National legislation and regulations
- Coordination on the national level
- Partnerships in mobility management
- Targeted funding programmes
